29 April 1957

MEMORANDUM FOR : Project Comptroller
THROUGH : Director Materiel
Project Director
SUBJECT : Project Comptroller's memo (SAPC-11672, 13 April)
"Receiving Inspection and Acceptance Reports"

25X1A 1. I have carefully reviewed the subject memo and discussed it with the Director of Materiel. I concur in the system outlined.

25X1A 2. It will be the responsibility of the Project Director of Materiel to forward to [REDACTED] all back uncertified vouchers and to receive back from [REDACTED] for presentation to the Project Comptroller all certified vouchers on equipment which has been received prior to this date. The procedure outlined in the reference memorandum will take effect on all shipments in the future.

25X1D 3. On unorthodox type handling of equipment, such as System V and the [REDACTED] which was damaged by Detachment C in an accident prior to formal receipt, the Project Director of Materiel will handle these in a manner of certification of acceptance which is acceptable to the Project Comptroller. In many cases as discussed with [REDACTED], such unorthodox handling 25X1A can be certified by [REDACTED] who will be responsible for such experimental type of equipment at the Ranch or in the future at Edwards North Base.

25X1A
